

Factsheet

SmartestEnergy is a next generation energy company, driving a smarter transition to a net-zero carbon future

We're helping businesses actively manage their approach to energy so they can take advantage of new opportunities in a more complex and distributed energy system. We were established in the UK in 2001 and have gone on to open offices in the United States and Australia in the last few years. With the financial strength and innovation of our parent company, the Marubeni Corporation, we are a stable and well-resourced independent energy company

Industrial and Commercial:

Supplying electricity to large businesses, complex portfolios, the public sector and mid-market in the UK

5.1%
I&C Supply market share; ranked 8th

7,208 GWh
Volume

16,480
Total number of MPANs supplied

+23
Net Promoter Score

7.8
Customer Satisfaction Score (CSAT)

79.3%
Renewable

20.7%
Non-renewable

Scope 2 emissions: 74 gCO₂/kWh
Total radioactive waste: 0.000 g/kWh

4,009 GWh

Renewable energy volume supplied to date this year*

*Based on our annualised volume by green energy source, which currently comprises 55.6% of our electricity supply contracts

Business (formerly Dual Energy):

Supplying electricity and gas to small and medium-sized enterprises in the UK

624 GWh
Volume

23,334
